I am vehemently opposed to the "taking" of my property rights and also to the taking to my neighbor's rights. It is beyond me why the City Council allows the Planning Commission to get away unbridled social and economic crazy-making in the name of environmentalism. Surely you have heard from the voters.

Please understand you are heading for a "train wreck" of litigation, huge legal expenses and likely damages and worse.

I, for one, am prepared to join others to facilitate the resolution of these matters in the Courts and at the ballot box.

Please redirect the Planning Commission before it is too late. If you don't, then YOU are part of the problem.

Thank you for your consideration.

John Rosling

Pleasant Beach.
